5. 优秀的商务谈判能力、敏锐的客户需求分析能力，具备独立策划与执行能力；
6. 熟悉计算机网络与通信系统基础，了解海外 IDC/IX/海缆等资源及分布；
7. 抗压能力强，能够接受频繁出差；
8. 中英文流利，具备全英文商务谈判和方案撰写能力；掌握其他东南亚语言者优先。

工作语言 / Working Language：
主要工作语言为英文，中文沟通能力必需，多语言能力为加分项。

Job Description

About Us:

We are a China-headquartered, global leader in telecommunications infrastructure, with extensive submarine cable and network resources spanning key regions worldwide. As a publicly listed company, we are experiencing rapid expansion, with our business footprint quickly extending into overseas markets. Focused on international development, we actively explore opportunities across global markets, providing employees with a platform to participate in international projects, work with cutting-edge technologies, and seize strategic business opportunities. Here, you will collaborate with top global talents, stand at the forefront of global network development, and achieve rapid career growth and advancement.

Key Account Sales Manager – International Data Business
Location: Singapore (covering Southeast Asia: Thailand, Vietnam, Indonesia, Malaysia, etc.)
Responsibilities:

1. Develop and expand international data business with telecom operators, ISPs, OTTs, hosting providers, and cloud service providers, achieving sales targets.
2. Design and deliver customized, one-stop marketing and product solution packages based on client needs, providing consultative sales support.
3. Maintain and grow relationships with existing and potential clients, leveraging current and new business resources to drive continuous revenue growth.
4. Identify customer needs and provide input to product and resource planning to support strategic business development.
5. Execute regional sales strategies and expand market presence to ensure achievement of business objectives.

Requirements:

1. Bachelor's degree or above, with at least 5 years of relevant industry experience, including 3+ years in international data business sales.
2. Familiarity with international data products and solutions such as IEPL, Global Internet Access, Cloud, SD-WAN, CDN; prior experience selling these solutions is preferred.
3. Established relationships with Southeast Asia telecom operators, ISPs, OTTs, or major internet companies, with proven success in facilitating sales or solution partnerships.
4. Experience with overseas operators or domestic operators' international business units is a plus.
5. Strong business negotiation skills, keen ability to uncover client needs, and capacity for independent planning and execution.
6. Solid understanding of computer networks and communication systems; familiarity with overseas IDC/IX and submarine cable resources and coverage.
7. Ability to work under pressure and travel frequently.
8. Fluent in English and Chinese for business communication; additional Southeast Asian languages are a plus.

Working Language:
Primary working language is English; Chinese language proficiency is required. Additional languages are advantageous.
